OFFICIAL PAPER OF THE CITY.

The Election.

The election taking place in this city we believe is the quietest ever known here. From present appearances there will be a very light vote. There seems to be little contest, the democracy calmly submitting to their fate. We cannot learn of any opposition ward officers in the Second and Third, and only in the Fourth do we hear that a democratic ward ticket is running. Our paper will doubtless go to press before the result is known, but it is easy to anticipate pretty nearly what it will be.

Election.—Third Ward, Mitchell, Union, 78. Pixley, Democrat, 2. Second Ward, Mitchell, 149. Pixley, 19. 1st Ward, Mitchell, 188, Pixley, 42. 3d Ward, Mitchell, 153, Pixley, 118. Total majority for Mitchell, 392.

Vigorous Measures—Copperheads Alarmed.—The Federal armies are now stated to be 1,200,000 strong—240,000 more than they numbered a year ago. It is plain to be seen that the government is preparing to strike the necessary blows for bringing the present contest to a triumphant close. Some conviction of this sort has alarmed the copperheads, and the fact affords the key to the systematic course of lying and deception which the presses of the desperate faction have adopted with respect to the general operations of the army and the policy of the Administration. But the people are too intelligent and too spirited to be imposed upon or misled. We have never known the democratic press in worse credit, than now. It is reaping the fruits of its folly and iniquity, in the entire loss of public confidence.

Slavery in Danger in its Last Stronghold.—The Louisville *Journal* is a good deal exercised about the existence of an imaginary "abolition conspiracy," which it charges with the design of changing the Constitution of the old Commonwealth. There is an evident tremor in the pro-slavery ranks of Kentucky, that points imperatively to the existence of a new-born feeling in that State, hostile to the institution. We perceive proofs of its working quite as strongly in what the opponents of emancipation say, as in anything pronounced by the friends of progress. It will be impossible to preserve slavery in Kentucky after it has been extinguished everywhere else.

Gone.—The Legislature of 1864 has come and gone. As usual, some good and much harm has been done. In the language of the poet, the good will be buried with the men, and the evil will live after them. On the whole, the session has been quite as harmonious as we had any reason to expect, considering the elements of discord that was born in their bones. Charity covers a multitude of sins, and we therefore let the mantle of our charity, for the present, fall on the silent past.—*Madison Patriot.*

Magnanimous Pump! How thankful ought the members to feel for the exhibition of such Christian spirit on your part.

As an illustration of the moral bankruptcy and mental imbecility of the democracy, we may state the fact that, in New Hampshire, they proposed to run Frank Pierce for United States Senator in case they succeeded in the late election. The bare suspicion that they meditated such an act of criminal folly was sufficient to cause the people to trample them as mire under their feet.

Napoleon.—The personal appearance of Napoleon III would puzzle the most active observer of physiognomy. The face of the man with the iron mask is not more devoid of expression than he is. Those fishy, rayless eyes, the parchment like cheeks, the stiff, pointed moustache, all suggest a sort of artificial face prepared for the occasion, while the real man, like the pythoness of Apollo, lies hidden, and delivers short oracular responses behind it. He is short in stature, though his body is full the average size. Of late years he has grown somewhat corpulent, like the first Napoleon and the other members of his family.

Story of an Exile.—The Norfolk (Va.) *Regime* says that Julius Dewess, a native of Virginia, succeeded in making his escape from Staunton the other day, and after much wandering, reached Norfolk on the 15th. No form of servitude, he says, could be so oppressive as the rules and regulations of the rebel Generals. Men are conscripted, robbed and imprisoned by the tyrants, upon the merest ^nod of military authority. Union men are watched by government spies, and suspected persons are, without trial, persecuted. There is much discontent among the troops; and the South Carolinians are most thoroughly hated by the men of all the other states. There is a feeling, too, that the North Carolina troops cannot be trusted with the guardianship of the state; and consequently Virginians and Georgians are in the garrisons of North Carolina. Mr. Dewess before leaving Staunton gave $1,600 worth of confederate notes for $100 in greenbacks.

GENERAL PARAGRAPHS.

—One thousand recruits for the Federal army are reported on their way from Germany to this country.

—During last year, 70,718 coolies had arrived at Ceylon, and 61,765 had left that island.

—A new periodical, upon the plan of *Notes and Queries*, has just been started in Paris, with the appropriate title of the *Intermediare.*

—A soldier lay in a lady's house, badly wounded. A Major General rode up to the door. His orderly took his horse. He got off, went in and sat down by the dying man's side. Taking out a little book, he read from it:—"Let not your hearts be troubled," &c. He then knelt down and offered up a prayer to God for that dying soldier. Arising from his knees, he bent down and kissed him, and said: "Captain G——, we shall meet in heaven." He then rode off. That General was Major-General Howard.

Anti-Slavery Amendment of the Constitution.

The question of amending the United States Constitution so as forever to prohibit slavery was discussed in the Senate on Monday week. Mr. Trumbull, of Ill., led off in a strong speech, in the course of which he said:

"The only effective mode of ridding the country of slavery is by constitutional amendment, forever prohibiting its existence within the jurisdiction of the United States. This amendment adopted, and not only does slavery cease, but it can *never* be established by State authority, or in any other way, than by again amending the Constitution. Whereas, if slavery should now be abolished by act of Congress or proclamation of the President, assuming that either has the power to do it, there is nothing in the Constitution to prevent any State from again re-establishing it. This change of the Constitution will also relieve us of all difficulty in the restoration to the Union of the rebel States when our brave soldiers shall have reduced them to obedience to the laws. And he was rejoiced to believe that this amendment would have a large support from what are known as the Border States. Being recommended by two-thirds of each House of Congress, is it unreasonable to expect its ratification by three-fourths of the States? We now have thirty-five states, and acts have passed to create two more (Nevada and Colorado.) These, added to those we already have, make thirty-seven States. To ratify the amendments will therefore require the affirmative votes of twenty-eight States. There are now twenty-one free States, including Nevada and Colorado, soon to be admitted. Add to them Delaware, Maryland, Missouri, West Virginia, Arkansas, Louisiana and Tennessee, and you have twenty-eight, the requisite number to carry the measure. I have assumed that all the free States will adopt the amendment. It is now very generally conceded that slavery is not a divine institution. The few in the northern or free States who attempt to uphold it do so on Constitutional grounds, denying the authority of the government to interfere with it; but none of these persons deny or can deny the power of the people to amend the Constitution in the mode prescribed by the instrument itself. If, then, they shall oppose an amendment for the abolition of slavery, it will not be because to abolish it in that form is unconstitutional but because it is not right, or, if right not expedient."

Mr. Wilson of Massachusetts spoke eloquently not only in behalf of this but of other forms of anti-slavery action. He concluded as follows:

"But the crowning act in this series of acts for the restriction and extinction of slavery in America is this proposed amendment to the constitution, prohibiting the existence of slavery forevermore in the Republic of the United States. If this amendment shall be incorporated by the will of the nation into the Constitution of the United States, it will obliterate the last lingering vestiges of the slave system, its chattelizing, degrading and bloody codes, its dark malignant, barbarizing spirit, all it was and is, everything connected with it, from the face of the nation it has scarred with moral desolation, from the bosom of the country it has reddened with the blood and strewn with the graves of patriotism."

In the House on the same day Mr. Stevens of Pa., offered a joint resolution, proposing a new article to the Constitution, which, when ratified by the requisite number of States, shall be valid, as a part of the Constitution, namely:

"Slavery and involuntary servitude, except for the punishment of crime, whereof the party shall have been duly convicted, is forever prohibited in the United States and all the Territories, and so much of article 4, Section 11, of the Constitution, as refers to the delivery up of persons owing service or labor, escaping into another State, is annulled."

A Russian Funeral.

The burial of the dead is a picturesque and interesting ceremony in Moscow. A body of priests, dressed in black robes and wearing long beards take the lead in the funeral cortege, bearing in their hands shrines and burning tapers. The hearse follows drawn by horses. Black plumes wave from the heads of the horses, and flowing black drapery covers their bodies and legs. Even their heads are draped in black, nothing being preceptible but their eyes. The coffin lies exposed, on the top of the hearse, and is also similarly draped. The combination of somber plumage and drapery has a singularly mournful appearance.

Priests stand on steps attached to the hearse, holding images of the Savior over the coffin; others follow in the rear comforting the friends and relatives of the deceased. A wild, monotonous chant is sung from time to time by the chief mourners, as the procession moves toward the burial ground. The people cease their occupations in the streets through which the funeral passes, uncover their heads, and bowing down before the images borne by the priests, utter prayers for the repose of the dead. The rich and poor of both sexes stand upon the sidewalk and offer up their humble petitions. The deep tongued bells of the Kremlin ring out their solemn peals, and the wild and mournful chant of the priest mingles with the grand knell of death that sweeps through the air.—All is profoundly impressive; the procession of priests with their burning tapers; the drapery of black of the horses; the coffin with its dead; the weeping mourners; the sepulchral chant; the sudden cessation of all the business of life, and rapt attention of the multitude; the deep, grand death knell of the bells; the glitter of domes and cupola on either side; the green-roofed sea of houses; the winding streets, and the costumes of the people—form a spectacle wonderfully wild, strange and mournful. In everything that comes within the sweep of the eye, there is a mixed aspect of Tartaric barbarism and European civilization. Yet even the stranger from a far-distant clime, speaking another language, accustomed to other forms must feel in gazing upon such a scene, that death levels all distinctions of race—that our common mortality brings us nearer together.

—If the color of Jeff. Davis' skin, says Prentice, were to strike in, his soul would be white. If the color of his soul were to strike out, his skin would be black.

—Judge Pearson, of North Carolina, in a recent *habeas corpus* case, decided that the recent act of the Rebel Congress to conscript persons who have furnished substitutes for the war, is unconstitutional.

LOCAL MATTERS.

The Murder of Levi Grant.

On the night of the 29th of March, Mr. Levi Grant, a large farmer residing in the town of Newark, in this county, was murdered under the following circumstances:

He had finished his day's work and, after supper, took his seat near a window in his kitchen, at a table—his head being about six inches from the window, and after singing a while, he took up a newspaper to read, making the remark, that his paper "must have got wet, it opened so hard," when some person on the outside of the house discharged a pistol through the window at the head of Mr. Grant. The ball took effect just back of and above the ear on the left side of the head, passing entirely through the brains, and lodging in the right side of the cranium, glanced upward some two inches, producing death in about two hours.

This happened about nine o'clock in the evening, in the midst of his family, consisting of his wife, Mrs. Goodrich, (his daughter,) and a little child of Mrs. Goodrich. The only male member of his family (Harvey Grant, a young man about 18 years old), being, at the time, at a neighbor's house.

The insecurity of life and property in this section of the country has of late become so apparent that a fixed determination is expressed by the inhabitants to leave no effort untried to bring the midnight assassin of Levi Grant to what our laws call *justice*, viz. imprisonment in the State prison during life—if not previously pardoned.

A person is now under arrest charged with the murder and will have his examination before D. W. C. Castle, Justice of the peace at Beloit, on Thursday, April 7th.

All persons having any suspicions against any person, or who can in any way aid in the detection of the murderer of Mr. Grant are requested to communicate the same to the Sheriff of Rock county at Janesville.

Respectfully,
Jno. L. V. Thomas.

Newark, April 2, 1864.

Money Well Appropriated.

The laborers in Hope S. S., now meeting in the Court Room, were agreeably surprised on Sunday afternoon, through the kindness of Mr. J. B. Cassoday Esq. This gentleman received from Jno. A. White of the 8th regiment, and formerly a member of the Baptist church of this city, the sum of fifteen dollars to be kept till his return, or, if he died, to be applied where Mr. C. might think it would do most good. This brave and christian soldier was killed by a shell early in the war, at Farmington. Mr. C. placed the money at interest, and after considering how best to dispose of it, so as to meet the original design of the owner, he decided to devote principal and interest, amounting to eighteen dollars to the Hope S. S., now gathering funds for their new chapel, which has been fairly commenced.

So far they have incurred no indebtedness, and this seemed to them an indication of the favor of divine providence, which awakened deep gratitude in their hearts. Their chapel is to be an ornament to the city, and a blessing to the children who assemble there from Sabbath to Sabbath. Those who have given their time and attention freely to sustain a school which has flourished from the first desire to be encouraged by the whole community, and it is to be hoped that no funds will be lacking to carry forward the noble enterprise to complete success.

The Eye and Ear.—Those afflicted in either of those delicate organs will do well to avail themselves of the opportunity now offered for obtaining relief by consulting Dr. Gardner, the skilful Oculist and Aurist, who is located at the Newhall House, Milwaukee, but who intends to visit Janesville for one week, commencing on Monday April the 11th until Saturday 16th, office at the Hyatt House, after that time will visit as occasion may require. The doctor brings testimonials of skill and ability in his profession of the highest character from medical men, and also from a number of patients, who unite in bearing unqualified testimony in his favor.

ARMY OF THE POTMAC.

New York, April 5.—The *Herald's* Alexandria despatch of the 4th says, a brief visit to the Army of the Potomac resulted in the discovery of nothing new. It has rained there 7 out of the last 10 days; camps in a most horrible condition; it will take four weeks sunshine to dry the ground so as to allow any part of the army to change base. The reorganization of the army is nearly perfected and troops are becoming reconciled to the new order of things.

CONNECTICUT ELECTIONS.

Hartford, April 5th, 1:30 a. m.—Indications now are that Buckingham's majority will be 8,000. The Senate will probably stand Union 18. Democratic 3. The Legislature will be three-fourths Union.

OHIO ELECTION.

Cincinnati, April 5.—At the election of City officers held here yesterday about three-fifths of the votes polled were Union. Majority, about forty-seven hundred.

Returns from interior towns, meagre.

Lancaster gives fifty majority; Troy one hundred and thirty; Dayton, 300. majority. Cleveland fifteen hundred majority. The Democrats carry Columbus.

FROM CAIRO AND BELOW.

Cairo, April 4, 1864.—The steamer Glasgow brought the news of the capture of large quantities of cotton up the Red River by our naval fleet.

The officers stated the prize as high as 30,000 bales, which is probably an exaggeration.

The U. S. Steamer, New National, is coming up loaded with cotton, and having two barges in tow loaded with the same commodity.

Nothing new from Forrest. All quiet at Paducah to-day.

The steamer *Constitution*, from New Orleans the 26th ult., arrived to-day with a cargo of sugar and Molasses for Cincinnati and St. Louis, and also brought up 426 mules and seventy wagons belonging to the 17th army corps, which were put off here.

The Union ticket succeeded in every ward but the 4th, on the Councilman and School Board, which changes the political complexion of both those bodies.

FROM CONNECTICUT.

New Haven, Ct., April 4.—Forty-nine towns in Fairfield, New Haven, Middlesex, New London and Windham counties, give Buckingham 4,000 majority. Indications are that the Union men have carried 18 out of 21 Senators, and two-thirds of the House of Representatives.

FROM LEAVENWORTH.

Leavenworth, Kansas, March 4, 1864.—At the election yesterday the polls were seized by a mob in the interest of McDowel, the Carney and Copperhead candidate, and Mayor Anthony and many of his friends were knocked down and brutally beaten.

The City Marshal was assaulted and dangerously wounded.

Armed men took possession of the polls early in the morning and defied the city authorities.

The military were called on by the Mayor to preserve order, but their assistance was refused.

Gen. Davis, the District commander, issued orders that the soldiers at the Fort should not visit the city unless entitled to vote, but the order was openly violated.

Gen. Curtis was absent.

Intense excitement exists, and the best citizens denounce the election as a farce and a fraud.

The Copperheads are jubilant.

Other dispatches say that Anthony tried to excite a mob, and closed the 1st and 4th Ward polls, but the people compelled him to open them again.

St. Louis, April 4.—At the election in Leavenworth, Joseph L. McDowell and his entire ticket was elected by from 600 to 800 majority.

At noon Mayor Anthony issued a proclamation closing the polls, calling on the citizens to assist him to preserve the peace which was disregarded, and the voting continued. Rioting was indulged in to a considerable extent, and several persons, including Mayor Anthony, were beaten with revolvers and drives from the polls.

FROM PRINCETON, N. J.

Princeton, N. J., April 4.—The election for borough officers took place to-day. The entire Union ticket was elected by 30 majority. The democrats had 36 majority last year.

FROM CLEVELAND.

Cleveland, April 4, 1864.—The City Election to-day resulted in a majority of fifteen hundred for the Union ticket. Only a light vote was polled. The majority is the heaviest ever known on so slight a vote.

—During General Sherman's expedition a wounded federal officer crawled into the yard of a secesh planter, when the latter took an axe, and with a fiendishness scarcely credible, struck him on the head, killing him instantly. A small party of federal soldiers coming up shortly after, the negroes told them of it, when they immediately shot the planter and placed him in the house, which they burned to the ground.

FARMERS, TAKE NOTICE! The undersigned are having made at Beloit, Wis., one hundred of those Reapers known as the

Cheap, or Webber Reaper!

Notwithstanding the increase of nearly double in price over other years of all materials put in Reapers, we are going to sell for 1864 at about the same prices as before. Our prices at the shop are $100 cash for single Reaper, for Reaper and Mower $140. We are making Fifty Mowers, which will be warranted to do good work. They will be made of steel bars of the Buckeye pattern, except the hinges.

Those buying Reapers alone can have Mowers the next year or thereafter for the same price, as the difference between reaper and mower.

We do not deem it necessary to extol our Reaper, for it is already known to be the only two-horse Reaper in use. Notwithstanding a great many are used with two horses, they ought to use three or four, and some of them six, to be as easy to the horse as ours are to two ordinary horses.

Please send in your orders early to be sure of a machine, as positively only one hundred of them will be built, and we will warrant each and every machine to

Work Well in all Kinds of Weather!

The Reels will be different from last year. They will be the over hanging reel, and have six bats instead of four keeping the reel, holding the grain to the sickle steady.

They will be shipped to any depot in Wisconsin or Illinois. Ten per cent. will be added if sold on time. One half the 1st of September, 1864, the balance the 1st of September, 1865.

Those buying machines will confer a favor by giving this machine publicity in their respective neighborhoods. When material gets to its usual stage we intend to make it a ninety dollar machine, and should have done it but for the unprecedented high prices of everything to construct machines with.

The Reaper Shop at Afton!

will attend strictly to the repairing of the Webber Reaper. None others wanted. We are prepared to change from chain to belt, put on castor wheels upon short notice. Men will be on hand to repair promptly. Charges light as the loss of material will admit. We shall manufacture none at that place, consequently we will be prepared to repair. Work solicited. All orders should be directed to

OFFICIAL PAPER OF THE CITY.

The Election.

The election taking place in this city we believe is the quietest ever known here. From present appearances there will be a very light vote. There seems to be little contest, the democracy calmly submitting to their fate. We cannot learn of any opposition ward officers in the Second and Third, and only in the Fourth do we hear that a democratic ward ticket is running. Our paper will doubtless go to press before the result is known, but it is easy to anticipate pretty nearly what it will be.

ELECTION.—Third Ward, Mitchell, Union, 78. Pixley, Democrat, 2. Second Ward, Mitchell, 149. Pixley, 19. 1st Ward, Mitchell, 133, Pixley, 42. 3d Ward, Mitchell, 153, Pixley, 118. Total majority for Mitchell, 392.

VIGOROUS MEASURES—COPPERHEADS ALARMED.—The Federal armies are now stated to be 1,200,000 strong—240,000 more than they numbered a year ago. It is plain to be seen that the government is preparing to strike the necessary blows for bringing the present contest to a triumphant close. Some conviction of this sort has alarmed the copperheads, and the fact affords the key to the systematic course of lying and deception which the presses of the desperate faction have adopted with respect to the general operations of the army and the policy of the Administration. But the people are too intelligent and too spirited to be imposed upon or misled. We have never known the democratic press in worse credit, than now. It is reaping the fruits of its folly and iniquity, in the entire loss of public confidence.

SLAVERY IN DANGER IN ITS LAST STRONGHOLD.—The Louisville *Journal* is a good deal exercised about the existence of an imaginary "abolition conspiracy," which it charges with the design of changing the Constitution of the old Commonwealth. There is an evident tremor in the pro-slavery ranks of Kentucky, that points imperatively to the existence of a new-born feeling in that State, hostile to the institution. We perceive proofs of its working quite as strongly in what the opponents of emancipation say, as in anything pronounced by the friends of progress. It will be impossible to preserve slavery in Kentucky after it has been extinguished everywhere else.

GONE.—The Legislature of 1864 has come and gone. As usual, some good and much harm has been done. In the language of the poet, the good will be buried with the men, and the evil will live after them. On the whole, the session has been quite as harmonious as we had any reason to expect, considering the elements of discord that *was* born in their bones. Charity covers a multitude of sins, and we therefore let the mantle of our charity, for the present, fall on the silent past.—*Madison Patriot.*

Magnanimous Pump! How thankful ought the members to feel for the exhibition of such Christian spirit on your part.

As an illustration of the moral bankruptcy and mental imbecility of the democracy, we may state the fact that, in New Hampshire, they proposed to run Frank Pierce for United States Senator in case they succeeded in the late election. The bare suspicion that they meditated such an act of criminal folly was sufficient to cause the people to trample them as mire under their feet.

NAPOLEON.—The personal appearance of Napoleon III would puzzle the most active observer of physiognomy. The face of the man with the iron mask is not more devoid of expression than he is. Those fishy, rayless eyes, the parchment like cheeks, the stiff, pointed moustache, all suggest a sort of artificial face prepared for the occasion, while the real man, like the pythoness of Apollo, lies hidden, and delivers short oracular responses behind it. He is short in statue, though his body is full the average size. Of late years he has grown somewhat corpulent, like the first Napoleon and the other members of his family.

STORY OF AN EXILE.—The Norfolk (Va.) *Regime* says that Julius Dewess, a native of Virginia, succeeded in making his escape from Staunton the other day, and after much wandering, reached Norfolk on the 15th. No form of servitude, he says, could be so oppressive as the rules and regulations of the rebel Generals. Men are conscripted, robbed and imprisoned by the tyrants, upon the merest nod of military authority. Union men are watched by government spies, and suspected persons are, without trial, persecuted. There is much discontent among the troops; and the South Carolinians are most thoroughly hated by the men of all the other states. There is a feeling, too, that the North Carolina troops cannot be trusted with the guardianship of the state; and consequently Virginians and Georgians are in the garrisons of North Carolina. Mr. Dewess before leaving Staunton gave $1,600 worth of confederate notes for $100 in greenbacks.

GENERAL PARAGRAPHS.

—One thousand recruits for the Federal army are reported on their way from Germany to this country.

—During last year, 76,713 coolies had arrived at Ceylon, and 61,765 had left that island.

—A new periodical, upon the plan of *Notes and Queries*, has just been started in Paris, with the appropriate title of the *Intermediare*.

—A soldier lay in a lady's house, badly wounded. A Major General rode up to the door. His orderly took his horse. He got off, went in and sat down by the dying man's side. Taking out a little book, he read from it:—"Let not your hearts be troubled," &c. He then knelt down and offered up a prayer to God for that dying soldier. Arising from his knees, he bent down and kissed him, and said: "Captain G——, we shall meet in heaven." He then rode off. That General was Major-General Howard.

Anti-Slavery Amendment of the Constitution.

The question of amending the United States Constitution so as forever to prohibit slavery was discussed in the Senate on Monday week. Mr. Trumbull, of Ill., led off in a strong speech, in the course of which he said:

"The only effective mode of ridding the country of slavery is by constitutional amendment, forever prohibiting its existence within the jurisdiction of the United States. This amendment adopted, and not only does slavery cease, but it can never be established by State authority, or in any other way, than by again amending the Constitution. Whereas, if slavery should now be abolished by act of Congress or proclamation of the President, assuming that either has the power to do it, there is nothing in the Constitution to prevent any State from again re-establishing it. This change of the Constitution will also relieve us of all difficulty in the restoration to the Union of the rebel States when our brave soldiers shall have reduced them to obedience to the laws. And he was rejoiced to believe that this amendment would have a large support from what are known as the Border States. Being recommended by two-thirds of each House of Congress, is it unreasonable to expect its ratification by three-fourths of the States? We now have thirty-five states, and acts have passed to create two more (Nevada and Colorado.) These, added to those we already have, make thirty-seven States. To ratify the amendments will therefore require the affirmative votes of twenty-eight States. There are now twenty-one free States, including Nevada and Colorado, soon to be admitted. Add to them Delaware, Maryland, Missouri, West Virginia, Arkansas, Louisiana and Tennessee, and you have twenty-eight, the requisite number to carry the measure. I have assumed that all the free States will adopt the amendment. It is now very generally conceded that slavery is not a divine institution. The few in the northern or free States who attempt to uphold it do so on Constitutional grounds, denying the authority of the government to interfere with it; but none of these persons deny or can deny the power of the people to amend the Constitution in the mode prescribed by the instrument itself. If, then, they shall oppose an amendment for the abolition of slavery, it will not be because to abolish it in that form is unconstitutional but because it is not right, or, if right not expedient."

Mr. Wilson of Massachusetts spoke eloquently not only in behalf of this but of other forms of anti-slavery action. He concluded as follows:

"But the crowning act in this series of acts for the restriction and extinction of slavery in America is this proposed amendment to the constitution, prohibiting the existence of slavery forevermore in the Republic of the United States. If this amendment shall be incorporated by the will of the nation into the Constitution of the United States, it will obliterate the last lingering vestiges of the slave system, its chattelizing, degrading and bloody codes, its dark malignant, barbarizing spirit, all it was and is, everything connected with it, from the face of the nation it has scarred with moral desolation, from the bosom of the country it has reddened with the blood and strewn with the graves of patriotism."

In the House on the same day Mr. Stevens of Pa., offered a joint resolution, proposing a new article to the Constitution, which, when ratified by the requisite number of States, shall be valid, as a part of the Constitution, namely:

"Slavery and involuntary servitude, except for the punishment of crime, whereof the party shall have been duly convicted, is forever prohibited in the United States and all the Territories, and so much of article 4, Section 11, of the Constitution, as refers to the delivery up of persons owing service or labor, escaping into another State, is annulled."

A Russian Funeral.

The burial of the dead is a picturesque and interesting ceremony in Moscow. A body of priests, dressed in black robes and wearing long beards take the lead in the funeral cortege, bearing in their hands shrines and burning tapers. The hearse follows drawn by horses. Black plumes wave from the heads of the horses, and flowing black drapery covers their bodies and legs. Even their heads are draped in black, nothing being preceptible but their eyes. The coffin lies exposed; on the top of the hearse, and is also similarly draped. The combination of somber plumage and drapery has a singularly mournful appearance.

Priests stand on steps attached to the hearse, holding images of the Savior over the coffin; others follow in the rear comforting the friends and relatives of the deceased. A wild, monotonous chant is sung from time to time by the chief mourners, as the procession moves toward the burial ground. The people cease their occupations in the streets through which the funeral passes, uncover their heads, and bowing down before the images borne by the priests, utter prayers for the repose of the dead. The rich and poor of both sexes stand upon the sidewalk and offer up their humble petitions. The deep tongued bells of the Kremlin ring out their solemn peals, and the wild and mournful chant of the priest mingles with the grand knell of death that sweeps through the air.—All is profoundly impressive: the procession of priests with their burning tapers; the drapery of black of the horses; the coffin with its dead; the weeping mourners; the sepulchral chant; the sudden cessation of all the business of life, and rapt attention of the multitude; the deep, grand death knell of the bells; the glitter of domes and cupola on either side; the green-roofed sea of houses; the winding streets, and the costumes of the people—form a spectacle wonderfully wild, strange and mournful. In everything that comes within the sweep of the eye, there is a mixed aspect of Tartaric barbarism and European civilization. Yet even the stranger from a far-distant clime, speaking another language, accustomed to other forms must feel in gazing upon such a scene, that death levels all distinctions of race—that our common mortality brings us nearer together.

—If the color of Jeff. Davis' skin, says Prentice, were to strike in, his soul would be white. If the color of his soul were to strike out, his skin would be black.

—Judge Pearson, of North Carolina, in a recent *habeas corpus* case, decided that the recent act of the Rebel Congress to conscript persons who have furnished substitutes for the war, is unconstitutional.

LOCAL MATTERS.

The Murder of Levi Grant.

On the night of the 29th of March, Mr. Levi Grant, a large farmer residing in the town of Newark, in this county, was murdered under the following circumstances:

He had finished his day's work and, after supper, took his seat near a window in his kitchen, at a table—his head being about six inches from the window, and after singing a while, he took up a newspaper to read, making the remark, that his paper "must have got wet, it opened so hard," when some person on the outside of the house discharged a pistol through the window at the head of Mr. Grant. The ball took effect just back of and above the ear on the left side of the head, passing entirely through the brains, and lodging in the right side of the cranium, glanced upward some two inches, producing death in about two hours.

This happened about nine o'clock in the evening, in the midst of his family, consisting of his wife, Mrs. Goodrich, (his daughter,) and a little child of Mrs. Goodrich. The only male member of his family (Harvey Grant, a young man about 18 years old), being, at the time, at a neighbor's house.

The insecurity of life and property in this section of the country has of late become so apparent that a fixed determination is expressed by the inhabitants to leave no effort untried to bring the midnight assassin of Levi Grant to what our laws call *justice*, viz. imprisonment in the State prison during life—if not previously pardoned.

A person is now under arrest charged with the murder and will have his examination before D. W. C. Castle, Justice of the peace at Beloit, on Thursday, April 7th.

All persons having any suspicions against any person, or who can in any way aid in the detection of the murderer of Mr. Grant are requested to communicate the same to the Sheriff of Rock county at Janesville.

Respectfully,
JNO. L. V. THOMAS.

NEWARK, April 2, 1864.

Money Well Appropriated.

The laborers in Hope S. S., now meeting in the Court Room, were agreeably surprised on Sunday afternoon, through the kindness of Mr. J. B. Cassoday Esq. This gentleman received from Jno. A. White of the 8th regiment, and formerly a member of the Baptist church of this city, the sum of fifteen dollars to be kept till his return, or, if he died, to be applied where Mr. C. might think it would do most good. This brave and christian soldier was killed by a shell early in the war, at Farmington. Mr. C. placed the money at interest, and after considering how best to dispose of it, so as to meet the original design of the owner, he decided to devote principal and interest, amounting to eighteen dollars to the Hope S. S., now gathering funds for their new chapel, which has been fairly commenced.

So far they have incurred no indebtedness, and this seemed to them an indication of the favor of divine providence, which awakened deep gratitude in their hearts. Their chapel is to be an ornament to the city, and a blessing to the children who assemble there from Sabbath to Sabbath. Those who have given their time and attention freely to sustain a school which has flourished from the first desire to be encouraged by the whole community, and it is to be hoped that no funds will be lacking to carry forward the noble enterprise to complete success.

THE EYE AND EAR.—Those afflicted in either of those delicate organs will do well to avail themselves of the opportunity now offered for obtaining relief by consulting Dr. Gardner, the skilful Oculist and Aurist, who is located at the Newhall House, Milwaukee, but who intends to visit Janesville for one week, commencing on Monday April the 11th until Saturday 16th, office at the Hyatt House, after that time will visit as occasion may require. The doctor brings testimonials of skill and ability in his profession of the highest character from medical men, and also from a number of patients, who unite in bearing unqualified testimony in his favor.

Things to be Remembered.

First, That it is a positive business necessity to have your buildings, merchandize and other personal property insured against fire.

Second, That E. L. Dimock now has the agency of nearly all the *Sound Old Eastern* Insurance Companies that are represented in the west, and that the capital represented by these companies is sufficient to do all the insurance for *Janesville and Rock County*.

Third, That these companies are noted for adjusting losses fairly and paying them promptly.

Fourth, That E. L. Dimock has left a few more of those beautiful calendars for 1864, blotting pads and excise laws for distribution to customers.

The Connecticut Election!

A UNION VICTORY!

FROM CONNECTICUT.

NEW HAVEN, 5.—Entire State with 18 towns to hear from, according to the *Palladium* gives Buckingham 5658 majority Unionist have 16 to 18 of the Senate, and three-fourths of the house.

FROM FORTRESS MONROE.

FORT MONROE, April 2.—Rebel commissioner Ould and Capt. Hatch returned to their flag of truce boat in James River last evening, and are probably on the way to Richmond,

FROM WASHINGTON.

WASHINGTON, April 5th.—Judge Advocate Holt has reported against the house bill taking from the President the power to summarily dismiss Army and Navy officers without trial by court martial. The Senate Military Committee have also reported adversely to the bill.

ARMY OF THE POTMAC.

NEW YORK, April 5.—The *Herald's* Alexandria despatch of the 4th says, a brief visit to the Army of the Potomac resulted in the discovery of nothing new. It has rained there 7 out of the last 10 days; camps in a most horrible condition; it will take four weeks sunshine to dry the ground so as to allow any part of the army to change base. The reorganization of the army is nearly perfected and troops are becoming reconciled to the new order of things.

CONNECTICUT ELECTIONS.

HARTFORD, April 5th, 1:30 A. M.—Indications now are that Buckingham's majority will be 8,000. The Senate will probably stand Union 13, Democratic 3. The Legislature will be three-fourths Union.

OHIO ELECTION.

CINCINNATI, April 5.—At the election of City officers held here yesterday about three-fifths of the votes polled were Union. Majority, about forty-seven hundred.

Returns from interior towns, meagre.

Lancaster gives fifty majority; Troy one hundred and thirty; Dayton, 300. majority. Cleveland fifteen hundred majority. The Democrats carry Columbus.

ST JOSEPH, Mo., April 4.—Complete returns show the election of Wm. R. Penyck, radical candidate for Mayor by two votes. The Council stands seven radicals, three conservatives.

A STEAMER ASHORE.

NEW YORK, April 5.—The steamer *Fairhaven* run ashore at Cape Henry on the night of the 1st. She had 450 soldiers on board returning to New York regiments. All were saved.

FROM CAIRO AND BELOW.

CAIRO, April 4, 1864.—The steamer Glasgow brought the news of the capture of large quantities of cotton up the Red River by our naval fleet.

The officers stated the prize as high as 30,000 bales, which is probably an exaggeration.

The U. S. Steamer, New National, is coming up loaded with cotton, and having two barges in tow loaded with the same commodity.

Nothing new from Forrest. All quiet at Paducah to-day.

The steamer *Constitution*, from New Orleans the 26th ult., arrived to-day with a cargo of sugar and Molasses for Cincinnati and St. Louis, and also brought up 420 mules and seventy wagons belonging to the 17th army corps, which were put off here.

The first Indiana artillery, veterans, 500 strong, arrived here en route for New Orleans. A portion of the 3d Minnesota, numbering 300, veterans, also arrived en route for Little Rock.

MEMPHIS, via Cairo, April 2.—Forrest, at last accounts, was at Jackson, Tennessee, apparently preparing to move south.

Chalmers is reported to have a considerable force at Grand Junction and Bolivar.

Lee and Wirt Adams are reported near Canton, Mississippi, with their commands.

FROM ST. LOUIS.

ST. LOUIS, April 4. 1864.—The Radicals beat the combined Copperhead Conservatives to-day, horse, foot and dragoon, electing Thomas, the Radical candidate for Mayor, by upwards of twenty-three hundred majority, and carrying seven out of ten wards of Councilmen.

Push on the column.

FROM DAYTON, OHIO.

DAYTON, O., April 4.—The municipal election passed off quietly. The whole Union ticket is elected by an average majority of 300 on the home vote.

The Union ticket succeeded in every ward but the 4th, on the Councilman and School Board, which changes the political complexion of both those bodies.

FROM CONNECTICUT.

NEW HAVEN, Ct., April 4.—Forty-nine towns in Fairfield, New Haven, Middlesex, New London and Windham counties, give Buckingham 4,000 majority. Indications are that the Union men have carried 18 out of 21 Senators, and two-thirds of the House of Representatives.

FROM LEAVENWORTH.

LEAVENWORTH, Kansas, March 4, 1864.—At the election yesterday the polls were seized by a mob in the interest of McDowel, the Carney and Copperhead candidate, and Mayor Anthony and many of his friends were knocked down and brutally beaten.

The City Marshal was assaulted and dangerously wounded.

Armed men took possession of the polls early in the morning and defied the city authorities.

The military were called on by the Mayor to preserve order, but their assistance was refused.

Gen. Davis, the District commander, issued orders that the soldiers at the Fort should not visit the city unless entitled to vote, but the order was openly violated.

Gen. Curtis was absent.

Intense excitement exists, and the best citizens denounce the election as a farce and a fraud.

The Copperheads are jubilant.

Other dispatches say that Anthony tried to excite a mob, and closed the 1st and 4th Ward polls, but the people compelled him to open them again.

ST. LOUIS, April 4.—At the election in Leavenworth, Joseph L. McDowell and his entire ticket was elected by from 600 to 800 majority.

At noon Mayor Anthony issued a proclamation closing the polls, calling on the citizens to assist him to preserve the peace which was disregarded, and the voting continued. Rioting was indulged in to a considerable extent, and several persons, including Mayor Anthony, were beaten with revolvers and drives from the polls.

FROM CLEVELAND.

CLEVELAND, April 4, 1864.—The City Election to-day resulted in a majority of fifteen hundred for the Union ticket. Only a light vote was polled. The majority is the heaviest ever known on so slight a vote.

—During General Sherman's expedition a wounded federal officer crawled into the yard of a secesh planter, when the latter took an axe, and with a fiendishness scarcely credible, struck him on the head, killing him instantly. A small party of federal soldiers coming up shortly after, the negroes told them of it, when they immediately shot the planter and placed him in the house, which they burned to the ground.

—At a recent meeting in Carlisle, England, the Rev. H. Miller heartily advocated the establishment of a local gymnasium, adding that he could see nothing improper even in a clergyman using "the gloves" to open his chest, harden his muscles, and improve his health.

FARMERS, TAKE NOTICE!

The undersigned are having made at Beloit, Wis., one hundred of these Reapers known as the

Cheap, or Webber Reaper!

Notwithstanding the increase of nearly double in price over other years of all materials put in Reapers, we are going to sell for 1864 at about the same prices as before. Our prices at the shop are $100 cash for single Reaper, for Reaper and Mower $140. We are making Fifty Mowers, which will be warranted to do good work. They will be made of steel bars of the Buckeye pattern, except the hinges.

Those buying Reapers alone can have Mowers the next year or thereafter for the same price, as the difference between reaper and mower.

We do not deem it necessary to extol our Reaper, for it is already known to be the only two-horse Reaper in use. Notwithstanding a great many are used with two horses, they ought to use three or four, and some of them six, to be as easy to the horse as ours are to two ordinary horses.

Please send in your orders early to be sure of a machine, as positively only one hundred of them will be built, and we will warrant each and every machine to

Work Well in all Kinds of Weather!

The Reels will be different from last year. They will be the over hanging reel, and have six bats instead of four keeping the reel, holding the grain to the sickle steady.

They will be shipped to any depot in Wisconsin or Illinois. Ten per cent. will be added if sold on time. One half the 1st of September, 1864, the balance the 1st of September, 1865.

Those buying machines will confer a favor by giving this machine publicity in their respective neighborhoods. When material gets to its usual stage we intend to make it a ninety dollar machine, and should have done it but for the unprecedented high prices of everything to construct machines with.

The Reaper Shop at Afton!

will attend strictly to the repairing of the Webber Reaper. None others wanted. We are prepared to change from chain to belt, put on castor wheels upon short notice. Men will be on hand to repair promptly. Charges light as the loss of material will admit. We shall manufacture none at that place, consequently we will be prepared to repair. Work solicited. All orders should be directed to CHURCH, WEBBER & CO.,

TUESDAY, APRIL 5, 1864.

FROM MADISON.

Editorial Correspondence.

MADISON, April 4, 1864.

The legislature of 1864 adjourned to-day at 12 o'clock M. in accordance with a joint Resolution of both houses. The usual complimentary resolutions were passed, thanking the officers for the faithful and impartial manner in which they have discharged their duties. The accustomed congratulatory speeches were made by the representatives of both political parties, and the regular jokes that are always perpetrated at the close of the session, were repeated with such variations as the occasion required.

It would require much more time than I can command in the brief half-hour that intervenes between this and the closing of the mail, to properly pass in review and comment upon, as I could wish, the acts and measures of this legislature, so I will content myself with merely repeating what I have already said in the outset, that a more intelligent and upright body of men never assembled in these halls. If they have failed to accomplish all that the public demanded of them, they have been guilty of very little that is vicious, or that will work injuriously to the commonwealth. They have had thrust upon their attention by corrupt and designing men, important and grave questions affecting the public good, which they have had the manliness and the wisdom to thwart and defeat. Almost as much time has been spent in preventing bad legislation as in perfecting that which was wholesome and good, and when any one makes up his estimate of these men, let him inquire what they have saved the state from, as well as what they have directly accomplished. They need not fear to meet their constituents, nor to give an account of their stewardship.

But the mail closes, and so do I.

A. M. T.

THE TAX ON TOBACCO.—It is now quite sure, that Secretary Chase's recommendation of a heavy tax on tobacco will be adopted. The opinion prevails in Treasury circles that a dollar or upward on spirits and a correspondingly high tax on tobacco, will yield full one half of all the revenue we shall need, and to that extent the necessaries and comforts of life will be relieved from burdens.

GEN. SMITH'S OPINION OF GEN. MCCLELLAN.—The prevailing impression that Gen Baldy Smith is filled with what Count Gurowski calls "McClellanism," is entirely an error. He was among the first of the Generals on the Peninsula after the collapse before Yorktown to denounce McClellan, officially and unofficially as incapable, and it is true that he brings here Grant's entire confidence in him as a strategist, an engineer and a fighting man.

The Nashville *Union* says that a detachment of the 5th Tennessee Cavalry recently started in pursuit of a band of rebel desperadoes, who have been committing the most shocking outrages on Unionists in the vicinity of McMinnville. Seventeen of the band were captured, all of whom were immediately hung, in retaliation for the recent murders they had committed. On the 1st the Tennesseans again overtook the guerrillas, and killed eight of the villains. Our cavalry are yet pursuing.

NOTORIOUS CHARACTER KILLED.—A dispatch from Jacksonville Ill. gives information that the notorious murderer, horse-thief, and deserter, Pete Cherry, was killed there the other day by a special agent of Provost Marshal Fry. He attempted resistance to his arrest and was shot down. Cherry is the man who killed the deputy marshal of Hancock county last year, and is known to have been the leader of a horse thief gang operating in the vicinity of Scottsville and Palmyra.

A FAT TAKE.—The Oskaloosa (Iowa) *Times* says that one of the former editors and publishers of that paper, recently fell heir, through the death of his wife's brother, to an estate valued at one and a half million of dollars. This valuable estate lies in Nevada, and consists of rich silver claims, said to be among the richest in the territories.

THE TAX ON DISTILLED SPIRITS.—It is stated that the discordance of views in the Ways and Means Committee respecting the tax on distilled spirits have been harmonized, and that the policy of high taxation is rapidly making converts outside and inside of their room. It is understood that a tax of not less than a dollar will be laid on spirits, and that the Committee will recommend that this be laid to take effect in May, instead of July. This will be done to cut off the two months rope given by the law, as it stands, to distillers to get a heavy stock on hand. It will obviate also the necessity of another wasteful debate over the question of taxing retroactively.

—When Jeff. Davis issued his proclamation for another fast day on the 8th of next month, he must have forgotten that there is an Eternal eye to read his heart and an Almighty avenger to punish his perfidy. In his arrogant pride, because he has deceived the miserable dupes around him, and has elevated himself upon the tears, groans, and misery of his fellowmen, he impiously presumes to thank Heaven for the victories and successes which have never been achieved, and to pray for the blessings of a free government under his despotic rule.—*Louisville Journal.*

—The Island of Java has recently suffered severely from volcanic eruptions. The mountains Merapi and Kl[illegible] burst forth, and all the towns in their neighborhood had been buried in volcanic ash and lava. The ash was carried to a distance of eighty miles. A little village called Blitar is supposed to have been totally overwhelmed and destroyed, and in several places the sugar and tobacco crops were entirely ruined. The latest accounts state that at least three hundred and fifty lives were lost.

COAL AT ONE MILL PER BUSHEL.—A member of the Cincinnati City Council has received a letter from a gentleman owning coal lands in Perry county, Ohio, on the Cincinnati and Zanesville Railroad, offering to contract with the city to furnish coal, in the mines, at one mill per bushel.

Words for Poor Boys.

When I was a boy of twelve years, I was working for twenty-five cents a week, with an old lady, and I had my hands full, but I did my work faithfully. I used to cut wood, fetch water, make fires, scrub and scour in the morning for the old lady, before the real work of the day commenced. My clothes were bad, and I had no means of buying shoes, so I was barefooted. One morning I got through my work early, and the old lady, who thought I had not done it, or was especially ill-humored then, was displeased, scolded me, and said I was idle and had not worked. I said I had; she called me a "liar." I felt my spirit rise indignantly against this, and standing erect, I told her that she should never have the chance of applying that word to me again. I walked out of the house, to re-enter it no more. I had not a cent in my pocket when I stepped into the world. What do you think I did then, boys? I met a countryman, with a team. I addressed him boldly and earnestly, and offered to drive the leader, if he would only take me on. He looked at me in surprise, but said he did not think I'd be of any use to him. "O yes, said I "I can rub down and watch your horses, and do many things for you, if you will only let me try." He no longer objected. I got on the horse's back. It was hard traveling, for the roads were deep, and we could only get on at the rate of twenty miles per day. This was, however, my starting point. I went ahead after this. An independent spirit, and a steady, honest, conduct, with what capacity God had given me—as He has given you—have carried me successfully through the world.

Don't be down hearted at being poor, or having no friends. Try and try again. You can cut your way through, if you live, so please God. I know it is a hard time for some of you. You are often hungry, and wet with the rain or snow; and it seems dreary to have no one in the city to care for you. But trust in Christ, and he will be your friend. Keep up a good heart, and be determined to make your own way honestly and truly through the world. As I said, I feel for you, because I have gone through it all—I know what it is. God bless you.—*General Mitchel.*

Salt at Lansing, Michigan.

[*From the Detroit Free Press, April 1.*]

We were yesterday shown a quantity of brine from the Lansing salt well. The brine is entirely free from sediment and is as clear as the purest spring water, yet it is of very decided strength and pungency. The tubing of the well leaks somewhat, admitting surface water, yet the strength of the brine procured shows that the salt rock has been reached in a spot favorable for the manufacture of the best quality of salt. The salometer indicates the strength of this brine to be upwards of 80, which is as high, or higher, than many of the wells in the State.

The work of boring is concluded, the well having now reached the depth of 1,300 feet, the last ninety feet of which was through the salt bearing rock. The erection of works for the manufacture of the salt will now be rapidly pushed forward to completion. The company is composed of energetic men, and they are bound to make the most of their lucky enterprise. The work of boring was entered into at first only as an experiment, but it has proved a most happy one, and more successful than could even have been anticipated. The strength of the brine and the depth and extent of the salt rock give assurance that the salt is unlimited, and scientific experiments have shown that the quality of the salt is unsurpassed. The company can congratulate themselves on the certain success of their enterprise. The citizens of Lansing are highly delighted at the prospect of its becoming a great salt manufacturing town, which at the present moment seems quite probable.

The well is located a short distance south-east of the old Benton House, near the junction of the Cedar with the Grand River. Other wells will undoubtedly be sunk in the same locality, and before many months the manufacture of salt will be carried on extensively.

THE ENLISTMENT OF SLAVES IN KENTUCKY.—Gov. Bramlette of Kentucky, with two backers, had an interview with Mr. Lincoln to accomplish by insinuation and coaxing what he failed to get by bullying—the stopping of the enlistment of slaves in Kentucky into the Union armies. It has transpired since the Governor's arrival in Washington, that at the time he remonstrated with the President against turning Kentucky slaves into Union soldiers, he had in type in the public printing office in Frankfort, a proclamation calling upon the people of Kentucky to defy the authority of the Government, and resist its action with force and arms.

Ex-Governor Jacobs has permitted an intimation to escape him that the scheme of resistance contemplated principally the seizure of the lines of communication with Grant's armies in the south, and force them, for want of supplies, to evacuate Georgia and Tennessee, and so let the rebels get possession of Kentucky and bring her wholly out of the Union.

—The message from the President transmitted to the Senate in response to a resolution of that body calling for information in relation to alleged projects for establishing monarchical Governments in Central and South America covers a communication from Secretary Seward, who reports to the President that surmises and jealousies are constantly arising on the subject to which the resolution refers, which are brought to the notice of the Department by our Representatives abroad; but there is no correspondence or other form of information which furnishes any trustworthy facts showing the existence of plans for the accomplishment of the object mentioned. Any correspondence which might be regarded as embraced in the resolution, besides being very vague, is in its nature confidential and its publication at the present time would be incompatible with the public interest. The communication was referred to the Committee on Foreign Affairs.

THE REBEL FORCES IN GEORGIA.—The Chattanooga *Gazette* says the rebels claim to have fifty thousand men at Dalton and vicinity, and that they will capture Chattanooga and occupy Tennessee when Longstreet moves into Kentucky, which they say he will do forthwith, with twenty-six thousand men. All the heavy artillery is removing from Kingston to Altoona. The rebel General Johnston has restricted his officers, from major-generals down, to one horse.

MAJ. GEN. BIRNEY.—David B. Birney, who has just been confirmed as a Major General in the volunteer service, is an Alabamian by birth, and the son of James G. Birney, who, originally an Alabama planter, liberated his slaves, removed to the West to educate his children, and was in 1840 made the abolitionist candidate for the Presidency. Gen. Wm. Birney is his brother.

—A curious trick of rifle shooting was lately performed at Paris. A Swiss gentleman backed himself to take aim with his carbine, then supported it with his right arm, then with his left hand put his hat over the muzzle, and hit the center of the target. This he did three times, and "landed" his money.

Speaker Field.

At the close of the session of the Legislature yesterday, Speaker Field addressed to the Assembly the following farewell speech:

Fellow Members and Officers of the Assembly:—The time has arrived which has been fixed by joint resolution of the two Houses for our final adjournment, and separation. This session has been to me a very agreeable and pleasant one. It is the fourth Assembly of which I have had the honor and pleasure of being a member, each of which, in my judgement, were very respectable bodies: but I think I can say with truthfulness, that I have had the honor of presiding at this session over the most industrious, intelligent and upright Assembly ever convened in this state.

I have endeavored, gentlemen, to preside over your deliberations with impartiality, to give a fair and just expression of the Assembly upon all measures which have come before you for consideration, and from the kind and friendly feelings ever manifested towards me under many trying circumstances, and under rulings which have sometimes been against your wishes and opinions, and from the vote of thanks which you have so unanimously tendered to me, and the magnificent testimonial of esteem I received at your hands on Saturday, costing nearly one hundred dollars, I feel that my desires have been more than fully realized.

We have frequently differed upon matters of State policy, as all legislative bodies must. Viewing these questions from a different stand point, it is not unreasonable that we should come to different conclusions, but in all the votes which I have given, I have been actuated by a desire to carry out the wishes of my constituents, and subserve the best interests of the whole State, and I have the charity to believe that each one of you has been actuated by a similar desire.

Gentlemen, whatever may be my position in after-life, whether occupying so distinguished a place as you by your votes honored me with at this session, or whether pursuing the more humble but equally honorable avocation of tilling the soil, and thereby adding something to the productive industry and wealth of the country, I shall never forget the many pleasant hours we have spent together during this session. It will ever be a pleasant thought to me, aye, it will ever be one of the brightest spots upon memory's page.

I now tender to you, all, gentlemen, both members and officers, my best wishes for your future success, prosperity and happiness, and my sincere thanks for your courtesy, kindness and gentlemanly deportment towards me during this entire session, and should we ever meet again, whether in the halls of legislation, or elsewhere, I trust and believe we shall meet as friends.

The Phoenix had a policy of $5,000 on the type, presses and machinery of that Journal—the proofs of the loss were handed in at the General Agency Office in Cincinnati on the 26th, and on the same day, Mr. Schuyler, representing the "Journal Co." received a draft for the full amount of his policy, as will be seen by the following receipt:

Janesville Daily Gazette.

TUESDAY, APRIL 5, 1864.

FROM MADISON.

Editorial Correspondence.

MADISON, April 4, 1864.

The legislature of 1864 adjourned to-day at 12 o'clock M. in accordance with a joint Resolution of both houses. The usual complimentary resolutions were passed, thanking the officers for the faithful and impartial manner in which they have discharged their duties. The accustomed congratulatory speeches were made by the representatives of both political parties, and the regular jokes that are always perpetrated at the close of the session, were repeated with such variations as the occasion required.

It would require much more time than I can command in the brief half-hour that intervenes between this and the closing of the mail, to properly pass in review and comment upon, as I could wish, the acts and measures of this legislature, so I will content myself with merely repeating what I have already said in the outset, that a more intelligent and upright body of men never assembled in these halls. If they have failed to accomplish all that the public demanded of them, they have been guilty of very little that is vicious, or that will work injuriously to the commonwealth. They have had thrust upon their attention by corrupt and designing men, important and grave questions affecting the public good, which they have had the manliness and the wisdom to thwart and defeat. Almost as much time has been spent in preventing bad legislation as in perfecting that which was wholesome and good, and when any one makes up his estimate of these men, let him inquire what they have saved the state from, as well as what they have directly accomplished. They need not fear to meet their constituents, nor to give an account of their stewardship.

But the mail closes, and so do I.

A. M. T.

THE TAX ON TOBACCO.—It is now quite sure, that Secretary Chase's recommendation of a heavy tax on tobacco will be adopted. The opinion prevails in Treasury circles that a dollar or upward on spirits and a correspondingly high tax on tobacco, will yield full one half of all the revenue we shall need, and to that extent the necessaries and comforts of life will be relieved from burdens.

GEN. SMITH'S OPINION OF GEN. McCLELLAN.—The prevailing impression that Gen Baldy Smith is filled with what Count Garowski calls "McClellanism," is entirely an error. He was among the first of the Generals on the Peninsula after the collapse before Yorktown to denounce McClellan, officially and unofficially as incapable, and it is true that he brings here Grant's entire confidence in him as a strategist, an engineer and a fighting man.

The Nashville *Union* says that a detachment of the 5th Tennessee Cavalry recently started in pursuit of a band of rebel desperadoes, who have been committing the most shocking outrages on Unionists in the vicinity of McMinnville. Seventeen of the band were captured, all of whom were immediately hung, in retaliation for the recent murders they had committed. On the 18th the Tennesseans again overtook the guerrillas, and killed eight of the villains. Our cavalry are yet pursuing.

NOTORIOUS CHARACTER KILLED.—A dispatch from Jacksonville Ill. gives information that the notorious murderer, horse thief, and deserter, Pete Cherry, was killed there the other day by a special agent of Provost Marshal Fry. He attempted resistance to his arrest and was shot down. Cherry is the man who killed the deputy marshal of Hancock county last year, and is known to have been the leader of a horse thief gang operating in the vicinity of Scottsville and Palmyra.

A FAT TAKE.—The Oskaloosa (Iowa) *Times* says that one of the former editors and publishers of that paper, recently fell heir, through the death of his wife's brother, to an estate valued at one and a half million of dollars. This valuable estate lies in Nevada, and consists of rich silver claims, said to be among the richest in the territories.

THE TAX ON DISTILLED SPIRITS.—It is stated that the dissonance of views in the Ways and Means Committee respecting the tax on distilled spirits have been harmonized, and that the policy of high taxation is rapidly making converts outside and inside of their room. It is understood that a tax of not less than a dollar will be laid on spirits, and that the Committee will recommend that this be laid to take effect in May, instead of July. This will be done to cut off the two months rope given by the law, as it stands, to distillers to get a heavy stock on hand. It will obviate also the necessity of another wasteful debate over the question of taxing retroactively.

—When Jeff. Davis issued his proclamation for another fast day on the 8th of next month, he must have forgotten that there is an Eternal eye to read his heart and an Almighty avenger to punish his perfidy. In his arrogant pride, because he has deceived the miserable dupes around him, and has elevated himself upon the tears, groans, and misery of his fellow-men, he impiously presumes to thank Heaven for the victories and successes which have never been achieved, and to pray for the blessings of a free government under his despotic rule.—*Louisville Journal.*

—The Island of Java has recently suffered severely from volcanic eruptions. The mountains Merapi and Kloet had burst forth, and all the towns in their neighborhood had been buried in volcanic ash and lava. The ash was carried to a distance of eighty miles. A little village called Blitar is supposed to have been totally overwhelmed and destroyed, and in several places the sugar and tobacco crops were entirely ruined. The latest accounts state that at least three hundred and fifty lives were lost.

COAL AT ONE MILL PER BUSHEL.—A member of the Cincinnati City Council has received a letter from a gentleman owning coal lands in Perry county, Ohio, on the Cincinnati and Zanesville Railroad, offering to contract with the city to furnish coal, in the mines, at one mill per bushel.

Words for Poor Boys.

When I was a boy of twelve years, I was working for twenty-five cents a week, with an old lady, and I had my hands full, but I did my work faithfully. I used to cut wood, fetch water, make fires, scrub and scour in the morning for the old lady, before the real work of the day commenced. My clothes were bad, and I had no means of buying shoes, so I was barefooted. One morning I got through my work early, and the old lady, who thought I had not done it, or was especially ill-humored then, was displeased, scolded me, and said I was idle and had not worked. I said I had; she called me a "liar." I felt my spirit rise indignantly against this, and standing erect, I told her that she should never have the chance of applying that word to me again. I walked out of the house, to re-enter it no more. I had not a cent in my pocket when I stepped into the world. What do you think I did then, boys? I met a countryman, with a team. I addressed him boldly and earnestly, and offered to drive the leader, if he would only take me on. He looked at me in surprise, but said he did not think I'd be of any use to him. "O yes, said I "I can rub down and watch your horses, and do many things for you, if you will only let me try." He no longer objected. I got on the horse's back. It was hard traveling, for the roads were deep, and we could only get on at the rate of twenty miles per day. This was, however, my starting point. I went ahead after this. An independent spirit, and a steady, honest, conduct, with what capacity God had given me—as He has given you—have carried me successfully through the world.

Don't be down hearted at being poor, or having no friends. Try and try again. You can cut your way through, if you live, so please God. I know it is a hard time for some of you. You are often hungry, and wet with the rain or snow; and it seems dreary to have no one in the city to care for you. But trust in Christ, and he will be your friend. Keep up a good heart, and be determined to make your own way honestly and truly through the world. As I said, I feel for you, because I have gone through it all—I know what it is. God bless you.—*General Mitchel.*

Salt at Lansing, Michigan.

[From the Detroit Free Press, April 1.]

We were yesterday shown a quantity of brine from the Lansing salt well. The brine is entirely free from sediment and is as clear as the purest spring water, yet it is of very decided strength and pungency. The tubing of the well leaks somewhat, admitting surface water, yet the strength of the brine procured shows that the salt rock has been reached in a spot favorable for the manufacture of the best quality of salt. The salometer indicates the strength of this brine to be upwards of 80, which is as high, or higher, than many of the wells in the State.

The work of boring is concluded, the well having now reached the depth of 1,300 feet, the last ninety feet of which was through the salt bearing rock. The erection of works for the manufacture of the salt will now be rapidly pushed forward to completion. The company is composed of energetic men, and they are bound to make the most of their lucky enterprise. The work of boring was entered into at first only as an experiment, but it has proved a most happy one, and more successful than could even have been anticipated. The strength of the brine and the depth and extent of the salt rock give assurance that the salt is unlimited, and scientific experiments have shown that the quality of the salt is unsurpassed. The company can congratulate themselves on the certain success of their enterprise. The citizens of Lansing are highly delighted at the prospect of its becoming a great salt manufacturing town, which at the present moment seems quite probable.

The well is located a short distance south-east of the old Benton House, near the junction of the Oldor with the Grand River. Other wells will undoubtedly be sunk in the same locality, and before many months the manufacture of salt will be carried on extensively.

THE ENLISTMENT OF SLAVES IN KENTUCKY.—Gov. Bramlette of Kentucky, with two backers, had an interview with Mr. Lincoln to accomplish by insinuation and coaxing what he failed to get by bullying—the stopping of the enlistment of slaves in Kentucky into the Union armies. It has transpired since the Governor's arrival in Washington, that at the time he remonstrated with the President against turning Kentucky slaves into Union soldiers, he had in type in the public printing office in Frankfort, a proclamation calling upon the people of Kentucky to defy the authority of the Government, and resist its action with force and arms.

Ex-Governor Jacobs has permitted an intimation to escape him that the scheme of resistance contemplated principally the seizure of the lines of communication with Grant's armies in the south, and force them, for want of supplies, to evacuate Georgia and Tennessee, and so let the rebels get possession of Kentucky and bring her wholly out of the Union.

—The message from the President transmitted to the Senate in response to a resolution of that body calling for information in relation to alleged projects for establishing monarchical Governments in Central and South America covers a communication from Secretary Seward, who reports to the President that surmises and jealousies are constantly arising on the subject to which the resolution refers, which are brought to the notice of the Department by our Representatives abroad; but there is no correspondence or other form of information which furnishes any trustworthy facts showing the existence of plans for the accomplishment of the object mentioned. Any correspondence which might be regarded as embraced in the resolution, besides being very vague, is in its nature confidential, and its publication at the present time would be incompatible with the public interest. The communication was referred to the Committee on Foreign Affairs.

THE REBEL FORCES IN GEORGIA.—The Chattanooga *Gazette* says the rebels claim to have fifty thousand men at Dalton and vicinity, and that they will capture Chattanooga and occupy Tennessee when Longstreet moves into Kentucky, which they say he will do forthwith, with twenty-six thousand men. All the heavy artillery is removing from Kingston to Altoona. The rebel General Johnston has restricted his officers, from major-generals down, to one horse.

MAJ. GEN. BIRNEY.—David B. Birney, who has just been confirmed as a Major General in the volunteer service, is an Alabamian by birth, and the son of James G. Birney, who, originally an Alabama planter, liberated his slaves, removed to the West to educate his children, and was in 1840 made the abolitionist candidate for the Presidency. Gen. Wm. Birney is his brother.

— A curious trick of rifle shooting was lately performed at Paris. A Swiss gentleman backed himself to take aim with his carbine, then supported it with his right arm, then with his left hand put his hat over the muzzle, and hit the center of the target. This he did three times, and "landed" his money.

Speaker Field.

At the close of the session of the Legislature yesterday, Speaker Field addressed to the Assembly the following farewell speech:

Fellow Members and Officers of the Assembly:—The time has arrived which has been fixed by joint resolution of the two Houses for our final adjournment, and separation. This session has been to me a very agreeable and pleasant one. It is the fourth Assembly of which I have had the honor and pleasure of being a member, each of which, in my judgement, were very respectable bodies: but I think I can say with truthfulness, that I have had the honor of presiding at this session over the most industrious, intelligent and upright Assembly ever convened in this state.

I have endeavored, gentlemen, to preside over your deliberations with impartiality, to give a fair and just expression of the Assembly upon all measures which have come before you for consideration, and from the kind and friendly feelings ever manifested towards me under many trying circumstances, and under rulings which have sometimes been against your wishes and opinions, and from the vote of thanks which you have so unanimously tendered to me, and the magnificent testimonial of esteem I received at your hands on Saturday, costing nearly one hundred dollars, I feel that my desires have been more than fully realized.

We have frequently differed upon matters of State policy, as all legislative bodies must. Viewing these questions from a different stand point, it is not unreasonable that we should come to different conclusions, but in all the votes which I have given, I have been actuated by a desire to carry out the wishes of my constituents, and subserve the best interests of the whole State, and I have the charity to believe that each one of you has been actuated by a similar desire.

Gentlemen, whatever may be my position in after-life, whether occupying so distinguished a place as you by your votes honored me with at this session, or whether pursuing the more humble but equally honorable avocation of tilling the soil, and thereby adding something to the productive industry and wealth of the country, I shall never forget the many pleasant hours we have spent together during this session. It will ever be a pleasant thought to me, aye, it will ever be one of the brightest spots upon memory's page.

I now tender to you, all, gentlemen, both members and officers, my best wishes for your future success, prosperity and happiness, and my sincere thanks for your courtesy, kindness and gentlemanly deportment towards me during this entire session, and should we ever meet again, whether in the halls of legislation, or elsewhere, I trust and believe we shall meet as friends.

HEIMSTREET'S INIMITABLE HAIR RESTORATIVE.

It is not a DYE, but restores gray hair to its original color, by supplying the capillary tubes with natural sustenance impaired by age or disease. All instantaneous dyes are composed of lunar caustic, destroying the vitality and beauty of the hair, and afford of themselves no dressing. Heimstreet's Inimitable Coloring not only restores hair to its natural color by an easy process, but gives the hair a luxuriant beauty, promotes its growth, prevents its falling off, eradicates dandruff, and imparts health and pleasantness to the head. It has stood the test of time being the original Hair coloring, and is constantly increasing in favor. Used by both gentlemen and ladies. It is sold by all respectable dealers, or can be procured by them of the commercial agents, D. S. BARNES & Co., 202 Broadway, New York. Two sizes, 50 cents and $1. aug1dawenly

On the morning of the 23d of February, the brick block, occupied by the "Lafayette Journal Co." in Lafayette, Ind., was burned to the ground. The PHŒNIX had a policy of $5,000 on the type, presses and machinery of the "Journal"—the proofs of the loss were handed in at the General Agency Office in Cincinnati on the 26th, and on the same day, Mr. Schuyler, representing the "Journal Co." received a draft for the full amount of his policy, as will be seen by the following receipt:

TUESDAY, APRIL 5, 1864.

THE LION'S ROAR.—Jules Gerard says: "The roar of the lion in its wild state—which is music which the most fastidious would deem worthy of listening to—is truly magnificent. His first note, which he commences to roar, is a low sound emitting from his chest and nostrils, but audible from a great distance. This is a species of prelude, and immediately afterward it is repeated; but this time more loud and protracted, the jaws of the animal being still closed, or the mouth but slightly opened. The third and fourth outbursts are given to the air through the full extended jaws, and with the full force of the lungs. To listen to this roar is terrible for those who happen to be crossing the monarch's path, or to be marching through the lonely forest. At length, after two or three more utterances of the kind the animal ends as he commenced, with less vigorous notes. The distance to which I have been able to trace the progress of the lion by his roar, when there are no contrary winds and no mountains or other objects to interrupt the sound, is two or three leagues, but when he roars about a league off, one who is not accustomed to the sound would believe him to be close at hand."

SILVER IN NEVADA.—The N. Y. *Tribune* has a glowing account of the silver in Nevada. In a total of 12,588 feet of land the value set on each foot is from $400 to $16,000, only four parcels out of thirty seven being put down at less than $1,000 a foot, and most of it reaching a large figure. The 12,588 feet are valued at $25,342,666.

DISEASES

OF THE

EYE AND EAR!

DR. GARDNER,

Graduate of the London, England, Opthalmic Infirmary,

OCULIST AND AURIST!

Operator on the Eye and Ear, respectfully informs the citizens of JANESVILLE AND VICINITY, that he will visit Janesville one week, commencing on

Monday, April 11, until Saturday, 16th,

Office at the Hyatt House. After that time will visit Janesville as occasion may require, and can be consulted daily from 9 A. M. to 1 P. M., and from 2 to 6 P. M., on Deafness and Noise in the Head, Catarrh, Impaired Sight, and all the diseases of the Eye and Ear. Artificial Eyes inserted without pain, and perfectly resembling the natural eye. Operations for Cataract, Strabismus or Cross Eye, Artificial Pupil, &c., skillfully performed.

Deafness, Noises in the Ear, Running from the Ear, Scales in the Ear, Accumulation of Wax in Ear, Polypus in the Ear, in fact, every disease of the Eye and Ear treated, and every operation in Aural or Opthalmic Surgery performed by Dr. Gardner.

Read the Following Statement.

I certify that I have been afflicted for two years with granular inflammation of the eyes. I have been under the care of several physicians, but they did not afford me any relief. At times I suffered so with pain that I could not sleep. I called on Dr. Gardner two weeks ago, and have been under his treatment since. I am now happy to say that I can use my eyes for the usual purposes, seemingly, as well as ever. The pain has entirely left me. MISS ADELIA WALTERS, Milwaukee.

This certifies that my daughter has suffered from a discharge from both ears, accompanied by deafness, caused by scarlet fever when she was three years old. Having subjected her to the treatment of Dr. Gardner, I am happy to say that the discharges have entirely ceased and her hearing is restored.
M. J. BABCOCK,
Division Street, Milwaukee.

Miss Margaret Odea has been afflicted with inflammation of eyes for the last seven years, so that she could hardly distinguish light in all that time, and was unable to read or do any work. At times her eyes were so painful that she could not sleep. She has been under the treatment of several physicians who did not give her any relief. She called on Dr. Gardner two weeks ago, and now she is entirely cured. We feel justified in speaking of the above case, not with a desire of puffing Dr. Gardner, but for the benefit of those who are similarly afflicted.—*Milwaukee Daily Sentinel, March 9th, 1864.*

Dr. Gardner still continues to receive a number of patients daily, who are suffering from diseases of the eye and ear. We know of several cases he has cured of blindness and deafness, which seemed almost miraculous. It is evident the Doctor understands his speciality. The afflicted should not delay to avail themselves of his skill. He does not take cases unless there are some hopes of a cure being effected.—*Daily Wisconsin*, Milwaukee.

Dr. Gardner's treatment of the eye and ear is wonderful.—*Daily News*, Milwaukee

WALKER HOUSE, Milwaukee, Feb. 21, '64.
DR. GARDNER—*Dear Sir:* Having been afflicted with deafness for ten years in my left ear, and having noticed your advertisement in the Milwaukee papers, I was induced to pay you a visit. No one can imagine my delight, when, after two operations my hearing was suddenly and without pain restored to me, for which I feel grateful. After being almost shut out from the pleasure of using so necessary a sense, to have returned, and to hear distinctly with both ears, reflects great credit on you for the skill you possess. I beg to thank you publicly for what I can so truly appreciate. I am, dear sir, yours respectfully,
GEO. S. MAWSON.

We know the case of Mr. Mawson to be strictly true.

BADGER!

1862! 1863! 1864!

GOOD! BETTER! BEST!

THE

BADGER DRILL!

HERETOFORE KNOWN AS

THE JESSUP DRILL!!

AS MADE BY

R. J. RICHARDSON,

is now vastly improved, and will hereafter be called the BADGER. The Badger possesses all the good qualities of the old drill, and many valuable improvements.

The feeding principle of the new Drill is the same as the old, but the working arrangement is quite different, and very much improved.

The workmanship is also much better than the old Drill. We will not claim that the Badger is better made than other Drills, but will say that it is made by experienced workmen, under my own supervision, and am willing that it should be compared with the best Drill made.

The frames are made of summer seasoned white ash, from the forests of Indiana. The poles and rolls are dried ash from Jefferson county. The hubs, and other castings, are from the reliable Rock River Iron Works of James Harris & Co. The various sizes of wrought iron are from numerous rolling mills of Pittsburgh.

THE POINTS ARE CAST STEEL,

from the celebrated Sheffield works of Singer, Nimick & Co. The felloes are from the Ohio State Prison, located at Columbus, Ohio. The spokes are of dry white oak, from Northern Wisconsin. The chains are from Wm. Fredericks, Germany. No pains have been spared to obtain the best material—the workmanship will show for itself.

To those who know the old Drill it is only necessary to say that the Badger is like it—only better. To those who are not acquainted with the old Drill, we would say that the Badger Drill is more accurate in its feeding than any other drill introduced.

That it is lighter draft and easier for the team than any Drill yet introduced into this market.

That it will distribute any kind of grain grown in this region. That it will

Plant Corn in Rows or in Hills!

Any distance apart, from three to six feet.

That the Badger is warranted to perform, in a good and workmanlike manner, all that is required of any Drill. If, on trial, it does not perform, it can be returned to the manufacturer, and all damage will be paid to the purchaser.

In consequence of the large advance in cost of all kinds of material, the Badger must be sold at advanced prices over last year.

Prices of the Badger for 1864:

9 Tooth Drill............$75 11 Tooth Drill............$85
10 Tooth Drill............ 80 12 Tooth Drill............ 90

Five dollars added for Grass Seeder. Four horse Drills will be made to order on short notice.
Price of 17th tooth Drill and Seeder, $120.

THE LION'S ROAR.—Jules Gerard says: "The roar of the lion in its wild state—which is music which the most fastidious would deem worthy of listening to—is truly magnificent. His first note, which he commences to roar, is a low sound emitting from his chest and nostrils, but audible from a great distance. This is a species of prelude, and immediately afterward it is repeated; but this time more loud and protracted, the jaws of the animal being still closed, or the mouth but slightly opened. The third and fourth outbursts are given to the air through the full extended jaws, and with the full force of the lungs. To listen to this roar is terrible for those who happen to be crossing the monarch's path, or to be marching through the lonely forest. At length, after two or three more utterances of the kind the animal ends as he commenced, with less vigorous notes. The distance to which I have been able to trace the progress of the lion by his roar, when there are no contrary winds and no mountains or other objects to interrupt the sound, is two or three leagues, but when he roars about a league off, one who is not accustomed to the sound would believe him to be close at hand."

SILVER IN NEVADA.—The N. Y. *Tribune* has a glowing account of the silver in Nevada. In a total of 12,588 feet of land the value set on each foot is from $400 to $16,000, only four parcels out of thirty seven being put down at less than $1,000 a foot, and most of it reaching a large figure. The 12,588 feet are valued at $25,342,666.

DISEASES OF THE

EYE AND EAR!

DR. GARDNER,

Graduate of the London, England, Opthalmic Infirmary,

OCULIST AND AURIST!

Operator on the Eye and Ear, respectfully informs the citizens of JANESVILLE AND VICINITY, that he will visit Janesville one week, commencing on

Monday, April 11, until Saturday, 16th,

Office at the Hyatt House. After that time will visit Janesville as occasion may require, and can be consulted daily from 9 A. M. to 1 P. M., and from 2 to 6 P. M., on Deafness and Noise in the Head, Catarrh, impaired Sight, and all the diseases of the Eye and Ear. Artificial Eyes inserted without pain, and perfectly resembling the natural eye. Operations for Cataract, Strabismus or Cross Eye, Artificial Pupil, &c., skillfully performed.

Deafness, Noises in the Ear, Running from the Ear, Scales in the Ear, Accumulation of Wax in Ear, Polypus in the Ear, in fact, every disease of the Eye and Ear treated, and every operation in Aural or Opthalmic Surgery performed by Dr. Gardner.

Read the Following Statement.

I certify that I have been afflicted for two years with granular inflammation of the eyes. I have been under the care of several physicians, but they did not afford me any relief. At times I suffered so with pain that I could not sleep. I called on Dr. Gardner two weeks ago, and have been under his treatment since. I am now happy to say that I can use my eyes for the usual purposes, seemingly, as well as ever. The pain has entirely left me.
MISS ADELIA WALTERS,
Milwaukee.

This certifies that my daughter has suffered from a discharge from both ears, accompanied by deafness, caused by scarlet fever when she was three years old. Having subjected her to the treatment of Dr. Gardner, I am happy to say that the discharges have entirely ceased and her hearing is restored.
M. J. BABCOCK,
Division Street, Milwaukee.

Miss Margaret Odea has been afflicted with inflammation of eyes for the last seven years, so that she could hardly distinguish light in all that time, and was unable to read or do any work. At times her eyes were so painful that she could not sleep. She has been under the treatment of several physicians who did not give her any relief. She called on Dr. Gardner two weeks ago, and now she is entirely cured. We feel justified in speaking of the above case, not with a desire of puffing Dr. Gardner, but for the benefit of those who are similarly afflicted.—*Milwaukee Daily Sentinel, March 9th, 1864.*

Dr. Gardner still continues to receive a number of patients daily, who are suffering from diseases of the eye and ear. We know of several cases he has cured of blindness and deafness, which seemed almost miraculous. It is evident the Doctor understands his speciality. The afflicted should not delay to avail themselves of his skill. He does not take cases unless there are some hopes of a cure being effected.—*Daily Wisconsin,* Milwaukee.

Dr. Gardner's treatment of the eye and ear is wonderful.—*Daily News,* Milwaukee.

WALKER HOUSE, Milwaukee, Feb. 24, '64.
DR. GARDNER—*Dear Sir:* Having been afflicted with deafness for ten years in my left ear, and having noticed your advertisement in the Milwaukee papers, I was induced to pay you a visit. No one can imagine my delight, when, after two operations my hearing was suddenly and without pain restored to me, for which I feel grateful. After being almost shut out from the pleasure of using so necessary a sense, to have returned, and to hear distinctly with both ears, reflects great credit on you for the skill you possess. I beg to thank you publicly for what I can so truly appreciate. I am, dear sir, yours respectfully,
GEO. S. MAWSON.

We know the case of Mr. Mawson to be strictly true.

BADGER!

1862! 1863! 1864!

GOOD! BETTER! BEST!

THE

BADGER DRILL!

HERETOFORE KNOWN AS

THE JESSUP DRILL!

AS MADE BY

R. J. RICHARDSON,

is now vastly improved, and will hereafter be called the BADGER. The Badger possesses all the good qualities of the old drill, and many valuable improvements.

The feeding principle of the new Drill is the same as the old, but the working arrangement is quite different, and very much improved.

The workmanship is also much better than the old Drill. We will not claim that the Badger is better made than other Drills, but will say that it is made by experienced workmen under my own supervision, and am willing that it should be compared with the best Drill made.

The frames are made of summer seasoned white ash, from the forests of Indiana. The poles and rolls are dried ash from Jefferson county. The hubs, and other castings, are from the reliable Rock River Iron Works of James Harris & Co. The various sizes of wrought iron are from numerous rolling mills of Pittsburgh.

THE POINTS ARE CAST STEEL,

from the celebrated Sheffield works of Singer, Nimick & Co. The felloes are from the Ohio State Prison, located at Columbus, Ohio. The spokes are of dry white oak, from Northern Wisconsin. The chains are from Wm. Fredericks, Germany. No pains have been spared to obtain the best material—the workmanship will show for itself.

To those who know the old Drill it is only necessary to say that the Badger is like it—only better. To those who are not acquainted with the old Drill, we would say that the Badger Drill is more accurate in its feeding than any other drill introduced.

That it is lighter draft and easier for the team than any Drill yet introduced into this market.

That it will distribute any kind of grain grown in this region. That it will

Plant Corn in Rows or in Hills!

Any distance apart, from three to six feet.

That the Badger is warranted to perform, in a good and workmanlike manner, all that is required of any Drill. If, on trial, it does not perform, it can be returned to the manufacturer, and all damage will be paid to the purchaser.

In consequence of the large advance in cost of all kinds of material, the Badger must be sold at advanced prices over last year.

Prices of the Badger for 1864:

9 Tooth Drill............$75 11 Tooth Drill............$85
10 Tooth Drill........... 80 12 Tooth Drill........... 90

Five dollars added for Grass Seeder. Four horse Drills will be made to order on short notice. Price of 17th tooth Drill and Seeder, $120.

BADGER STATE NURSERY

LOUDON & ROBINSON,

Proprietors.

Persons in want of fruit trees will find at our nursery a large stock of the following kinds:

Apple, Pear, Cherry, Peach, Apricot, Nectarines. Of small fruits: Strawberries, Raspberries, Gooseberries, Blackberries, Currants, Grapes, &c., &c.

We have a large lot of grape vines, embracing over 150 varieties, including all of the old varieties, and most of the new and rare sorts.

Of ornamental trees, shrubs and evergreens, our stock is unrivalled. It embraces Maples, Elms, Ash, Buttonwood, Willows, Horse Chestnut, Mountain Ash, Basswood, Evergreens of every variety, Snowballs, Lilacs, Syringas, Dogwood, Weigelas, Roses, Flowering Almond, Spiraea, Roses, Japanese Quince, &c., &c., &c. In fact our space will not admit of an enumeration of the immense number of kinds and varieties of which our stock is composed.

Our trees and plants will be sold at greatly reduced rates, and are larger and better in every respect than those that are hawked about the country by peddlers of Eastern trees, of which one per cent. was never known to survive even the mildest Western winter.

Some portions of the nursery occupies leased land, which has to be cleared this spring. For this reason we shall offer great inducements to purchasers. Our bedding out and greenhouse plants will not be ready till about the middle of May. 301mr22d1maw3t

GOTTSCHALK ON KNABE.

[Translated from the French.]

After having played on the Piano of Messrs. Knabe & Co., it is impossible not to bear testimony to their qualities which have acquired for them the eminent reputation which they enjoy. The Pianos of their manufacture, on which I have played, are exceedingly remarkable for their qualities. The bass is powerful without harshness, and the upper notes sweet, clear and harmoniously mellow, (chrystalline,) and I do not hesitate to express in regard to these instruments my entire satisfaction, and to declare that they are equal *if not superior* to the best manufactured in Europe or this country by the most celebrated makers.

FLORENCE SEWING MACHINE

Over the Post Office!

There is nothing so much sought for by the public as a practical Sewing Machine, one that is

Simple, Strong & Reliable.

One that will run for years without the annoyance of being out of repair; one that is noiseless and swift in motion; also that makes the stitch as you want it, alike on both sides of the fabric; such are the machines of the

FLORENCE SEWING MACHINE

COMPANY!

Who take pleasure in placing their machines before the public, and unhesitatingly say they are the best in the world, and openly and publicly challenge machines of any and all manufacturers to do as large a range of work as can easily be done on one of those machines. They make

FOUR DIFFERENT STITCHES,

and have all the advantages of a reversible feed motion, which carries the work either way, which, together with making all the four stitches, can be done whilst the machine is in motion; the saving of time in stopping to change the length of stitch, is obviated by this machine.

Any correspondence regarding our machines will be promptly answered. Enclose a letter stamp and we will send circular and sample of work by return mail.

BADGER STATE NURSERY

LOUDON & ROBINSON,

Proprietors.

Persons in want of fruit trees will find at our nursery a large stock of the following kinds:

Apple, Pear, Cherry, Peach, Apricot, Nectarines. Of small fruits: Strawberries, Raspberries, Goose berries, Blackberries, Currants, Grapes, &c., &c.

We have a large lot of grape vines, embracing over 150 varieties, including all of the old varieties, and most of the new and rare sorts.

Of ornamental trees, shrubs and evergreens, our stock is unrivalled. It embraces Maples, Elms, Ash, Buttonwood, Willows, Horse Chestnut, Mountain Ash, Basswood, Evergreens of every variety, Snowballs, Lilacs, Syringas, Dogwood, Weigelias, Roses, Flowering Almond, Spiraus, Roses, Japanese Quince, &c., &c., &c. In fact our space will not admit of an enumeration of the immense number of kinds and varieties of which our stock is composed.

Our trees and plants will be sold at greatly reduced rates, and are larger and better in every respect than those that are hawked about the country by peddlers of Eastern trees, of which one per cent. was never known to survive even the mildest Western winter.

Some portions of the nursery occupies leased land, which has to be cleared this spring. For this reason we shall offer great inducements to purchasers. Our bedding out and greenhouse plants will not be ready till about the middle of May. 301mr22d1maw3t

A Premium of	$25 00
For an accepted Recruit (not a veteran)	15 00

In offering these liberal terms, Bounties and Premiums, it is the desire of the Government to give the people an opportunity of doing away with the necessity for the draft, to come off January 5th, 1863, under the President's last call of October 17th, for 300,000 men. So that all sub-districts who furnish their quota under this last call will not be liable to the draft of January 5th, 1864, and will be credited for whatever number they furnish.

It should be understood that *all enlistments* whether under the above conditions, or in other organizations, will be credited in this last call.

GOTTSCHALK ON KNABE.

[Translated from the French.]

After having played on the Piano of Messrs. Knabe & Co., it is impossible not to bear testimony to their qualities, which have acquired for them the eminent reputation which they enjoy. The Pianos of their manufacture, on which I have played, are exceedingly remarkable for their qualities. The bass is powerful without harshness, and the upper notes sweet, clear and harmoniously mellow, (chrystaline,) and I do not hesitate to express in regard to these Instruments my entire satisfaction, and to declare that they are equal *if not superior* to the best manufactured in Europe or this country by the most celebrated makers.

Signed, L. M. GOTTSCHALK.

FLORENCE SEWING MACHINE

Over the Post Office!

There is nothing so much sought for by the public as a practical Sewing Machine, one that is

Simple, Strong & Reliable.

One that will run for years without the annoyance of being out of repair; one that is noiseless and swift in motion; also that makes the stitch as you want it, alike on both sides of the fabric; such are the machines of the

FLORENCE SEWING MACHINE

COMPANY!

Who take pleasure in placing their machines before the public, and unhesitatingly say they are the best in the world, and openly and publicly challenge machines of any and all manufactures to do as large a range of work as can easily be done on one of these machines. They make

FOUR DIFFERENT STITCHES,

and have all the advantages of a reversible feed motion, which carries the work either way, which, together with making all the four stitches, can be done whilst the machine is in motion; the saving of time in stepping to change the length of stitch, is obviated by this machine.

Any correspondence regarding our machines will be promptly answered. Enclose a letter stamp and we will send circular and sample of work by return mail.
